Question Arises as to Whether He Can Accept Position of Secretary of State.

Washington, Feb. 10.-Much discus sion has been aroused over a question raised as to whether Senator Philander C. Knox of Pennsylvania, who has een selected to be secretary of state in the Taft cabinet, is eligible under the constitution of the United States to accept the office.

Attention has been called to Sec tion VI. Article I of the the constitution, which reads as follows:

"No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of United States which shall have been reated, or the emoluments whereof shall have been increased during such time."

During Mr. Knox's present term as senator the salaries of all cabinet officers were increased from \$8,000 to \$12,000 a year. As the term of Senator Knox does not expire until March 3, 1911, two years after the time when his name would be sent by Mr. Taft to the senate for confirmation. the question is asked if Mr. Knox will be able constitutionally to accept the state portfolio.

The only precedent recalled in a similar case was that of the late Senator Ransom of North Carolina, who was appointed by President Cleveland to be minister to Mexico, the emoluments of which office were raised while Mr. Ransom was a member of the senate. Under the decision rendered by the comptroller of the treasury it was held that Senator Ransom could not become minister to

T ere is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. What a Newspaper Can Do.

The Publishers Bulletin, organ of the United Publishers Association, printed in New York City in its issue of Feb. 1st publishes on its front pages a likeness of James C. Deidrick, president of the Morning News Company, and under the caption of "What a Newspaper Can Do" says:

The power of the press in the political field was effectually demonstrated in the recent Ohio election in Canton and Stark County where the Canton 'Morning News' made a vigorous fight for the Democracy. Stark county that gave over 9,000 plurality to Roosevelt in 1904, save but 1,500 for Taft, and this in spite of the fact that a tidal wave for Taft awept over the state. Gov. Harmon carried the county by nearly 1,000 and the city of Canton by a big majority. For the first time in recent years the two members of the legislature we elected by the democrate as well as the prosecuting attorney and a county commissioner. The "Morning News" is practically the only Democratic paper in Stark county and its publisher received special mention from the chairman of the Democratic State Committee for the work performed during the campaign, and the reason for much of this result lies in the fact that the Canton "Morning News" is one of the few "old school" newspapers. Established in 1833, it has been since that time recognized as the Democratic Bible of Stark and adjusting counties. The character of its following is shown by the fact that the Canton "Morning News" is one of the few "old school" newspapers. Established in 1833, it has been since that time recognized as the Democratic Bible of Stark and adjusting counties. The character of its following is shown by the fact that the canton it was rated as being thrift in quality of circulation of any paper then examined by the association.

MR, LAWYER ATTACKS WERTZ

Ashtabula's Senator Criticises Wooster Man and Defenda Management of the Penitentiary.

Columbus, O. - Senator Charles Lawyer of Ashtabula, member of the commission to investigate conditions at the penitentiary and report to the governor, objects to the recent statement of ex-Representative Wertz of Wooster, who characterized the work of the commission as a delusion and a snare.

Senator Lawyer sald yesterday: "Mr. Wertz evidently has just found out that the law which bears his name, providing for the abolishment of contract labor, entirely failed to provide for the employment of the convicts in the penitentiary and instead of being a benefit to them it does them a great injustice by leaving

them in idleness. "Mr. Wertz was a member of the legislature at the time this law went into effect and he knew, or at least ought to have known, that no appropriations were made by the legislature for the purpose of enabling the managers of either the Ohio penitentiary or of the Ohio state reformatory to carry into effect the provisions of his law, through the purchase of machinery with which to produce articles either for the state use, or the building of roads or purchase of prop-

"The penitentiary commission held a number of public sessions at the penitentiary for the purpose of hearing charges of mismanagement the penitentiary. Able counsel was employed and the papers of Ohlo gave notice of the purpose of these sessions and all persons wishing to make any complaints were invited to present their charges, but no charge of any kind was brought before the committee. The committee examined the warden as to his methods of discipline and management and also carefully inspected the prison plant. The committee found no reason to object to the discipline by the warden. It also found that under his manage ment the financial part of the prison management was better than any preceding warden. The report of the committee was unanimous and especially so regarding the charges of mismanagement of the penitentiary.

Ouster Cases are Continued.

Lima, O .- The circuit court yesterday continued the ouster cases against the auxiliary companies of the Standard Oil Co., it being suggested by Judges Norris and Donnelly that the Standard Oil Company of New Jersey be made a party to the suit. Big Supply Bill Is Ready.

Columbus, O .- "The big appropriation bill could be introduced in the legislature to-morrow if necessary," said Chairman H. J. Ritter, of the house finance committee vesterday. The committee has smashed all previous records in the preparation of such bills. He declined to say how much the appropriations would aggregate, but it is understood that it will be in the neighborhood of \$7,000,000 and that the intention is to keep the sum appropriated within the revenues of the state for the coming year. There is between \$6,000,000 and \$7,-000,000 in the state treasury.
